

Nikhil

nikhilkohli2407@gmail.com | (+91) 9773935945

SKILLS

Frontend: React.js, Redux, Next.js, JavaScript, TypeScript, HTML/CSS, Tailwind CSS, Bootstrap, EJS, Framer Motion.

Backend: Node.js, Express.js, MongoDB, Mongoose, SQL, JWT, WebSocket, RESTful APIs.

DevOps / Tools: Git, Docker, Kubernetes, CI/CD Pipelines, Postman, Thunder Client.

Other Skills: API Integration, Authentication & Authorization.

EXPERIENCE

❖ Full Stack Developer Intern at Unified Mentor Private Limited | Apr 2025 (9 months)

- Developed multiple full-stack web applications using the MERN stack with full CRUD functionality
- Built projects including a Catering Order System, Soil Info App, Weather App, To-Do List, and Calculator
- Designed responsive UIs, integrated RESTful APIs, and managed backend services
- Deployed applications using Render and Vercel, used Git/GitHub for version control.

PROJECTS

Full Stack Social Media Project

- Built a professional social networking platform using **MongoDB, Express.js, React.js, Node.js**, and **Redux**.
- Implemented **secure authentication and role-based authorization** using **JWT**.
- Developed core social features including **follow/unfollow**, post creation, comments, saves, and post/comment deletion.
- Designed **fully customizable user profiles** with profile images, bio, and personal details.
- Implemented a **24-hour status (story) feature** with auto-expiry, visible only to followed users.
- Built an **optimized feed system with paginated & infinite scrolling**, fetching **randomized posts in batches of 20** to reduce load and improve performance.
- Ensured **duplicate-free feed fetching**, preventing previously loaded posts from reappearing during scroll.
- Used **Redux for efficient global state management** and improved UI responsiveness.
- Optimized frontend performance for **fast load times and smooth user experience**.

ChatGPT Web Clone

- Developed a full-stack web application using MongoDB, Express, React, and Node.js (MERN stack), integrating OpenAI's GPT APIs to build a real-time AI chat assistant.

- **Chat History Management:** Stores and displays past chat conversations along with GPT-generated responses.
- **Delete & Reset Chats:** Users can delete individual chats or clear the full history.
- **New Chat Sessions:** Easily start new conversations with the AI assistant.
- **GPT API Integration:** Connected to OpenAI's API to fetch dynamic, context-aware responses in real-time.

Web Chat Application

- A web chat application built using WebSocket's and the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Real-time communication with features like screen sharing, text chat, and toggling mic and camera.
- Utilizes secure API endpoints for user authentication and message handling.
- Implements JWT (JSON Web Token) for secure user authentication and session management.
- Ensures data privacy with encrypted communications between client and server.

Node Mailer Contact Web App

- Built a **full-stack contact web app** using the **MERN stack** (MongoDB, Express, React, Node.js).
- Created a responsive form for users to submit their **Name, Email, Subject, and Message**.
- Used the **Node Mailer Node.js package** to:
 - Send a **styled email** with user input to my personal email.
 - Automatically send a **greeting confirmation email** back to the user.
- Used `nodemailer.createTransport()` and `sendMail()` methods for email delivery.
- Applied **basic CSS styling** for a clean, user-friendly interface.
- Ensured **real-time communication** and quick response handling through server-side logic.

EDUCATION

- I'm currently pursuing a Bachelor of Computer Applications (BCA) degree from Indira Gandhi National Open University (IGNOU).
- XII (CBSE) | Government Boys Senior Secondary School 60% | 2024
- X (CBSE) | Government Boys Senior Secondary School 57% | 2022
- Full Stack Developer (Apna College) | DSA with Java Certified.

ACHIEVEMENTS / HOBBIES

- Certified Full-Stack Developer, accredited by Apna College.
- Enthusiastic PC gamer, sharpening strategic thinking and problem-solving skills.
- Dedicated to solving quantitative aptitude challenges and preparing for English proficiency.
- I am also consistently preparing for Data Structures and Algorithms (DSA) daily to strengthen my problem-solving skills.
